

At NAMM 2005
*Mi-Si introduced the first line of battery-free
active acoustic amplification preamps*

At NAMM 2006
*See and hear what comes next
Still totally active
Still totally acoustic
Still totally battery free*

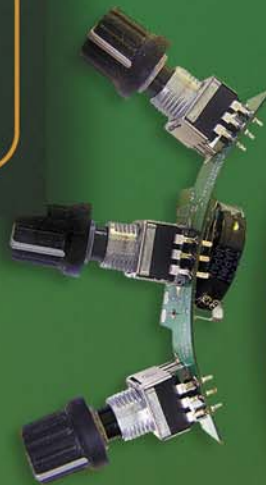

MiSi

Mi-Si Electronics Design, Inc.
Battery-Free Technology for Acoustic Amplification

Booth # 3535
NAMM 2006, Anaheim CA

Now available through Harris-Teller, Inc. • www.harristeller.com

Your Tone is about to come Full Circle

The New Fishman Full Circle Upright Bass Pickup

As a bassist it's all about your tone. Plug in the Full Circle and you'll finally hear the sound of your upright, not someone else's pickup. Big fat and punchy pizz. Full voiced arco. Rockin' slap. It's all acoustic, only louder.

The Full Circle Upright Bass Pickup ...
360° of Tone.
